

Thank you for using my WP A.I. Image Creator plugin.  
Please follow the user guide before you use the plugin on your website.

## Getting Your OpenAI API Key

- Visit this link: <https://platform.openai.com/account/api-keys>
- Log in or Register first if you haven't had an account at OpenAI
- Create a new API Key on that page
- Copy that API Key

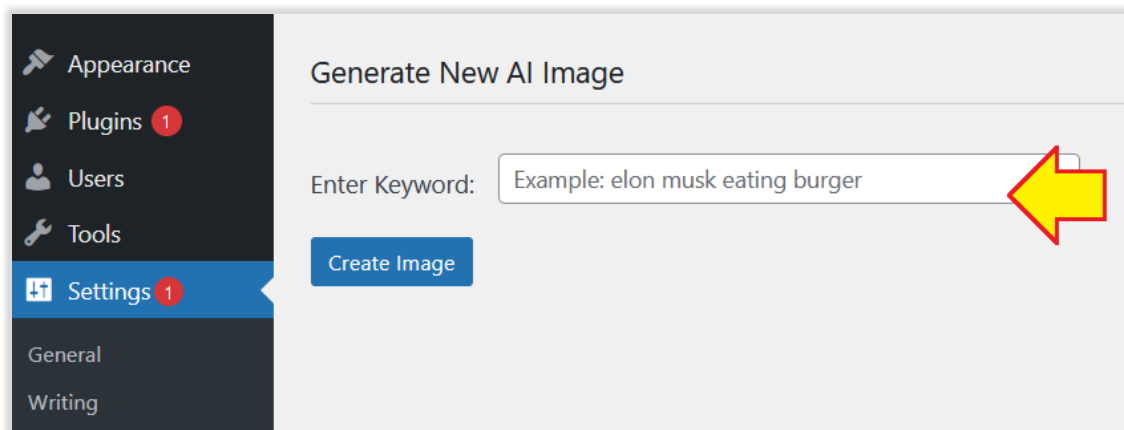

## Using WP A.I. Image Creator Plugin

- Navigate to Settings menu -> AI Image Maker submenu:

- Enter your API Key on the provided field
- Click Save Changes button

After that you can start generating A.I. images from your own website:

Enjoy using the plugin!

Cheers,
